HIGH-PERFORMANCE PROTECTION

DESAPRO® ROTEX™ rotomold rackmount cases are heavy-duty 19" rackmount enclosures designed for the transport and field deployment of electronic systems. Manufactured using rotationally molded polyethylene, these cases combine impact resistance, environmental sealing, and integrated rack hardware to support portable servers, communications systems, and control electronics in demanding environments. Combined with DESAPRO's engineering and system integration capabilities, these cases support complete transport and deployment solutions for mission-critical systems.
